

## TURNTABLE

- Turntable at Entry & Exit of the counting line for container loading & collection.
- VFD system with inverter.
- Designed to handle various types of bottles.
- Automatic swing system to avoid jamming of containers.

## UNSCRAMBLER

- PLC controlled system with touch screen HMI.
- Can Handle HDPE and Plastic container (Round Shapes).
- Online inverted bottle cleaning with ionized air & vacuum suction.

## AIRJET CLEANER

- PLC controlled system with arrangement for air purging & vacuum suction.
- Air scavenging during flow ensures cleanliness by pushing the dust which is sucked by vacuum.
- Change parts will be based on Container diameter & mouth opening.

## MULTI-CHANNEL COUNTER

- Health mode alarm for sensor contamination due to dust.
- Vibration speed settings through HMI.
- Container transfer systems controlled through servo drives.
- Memory flaps for accurate counting.
- Comfortable hopper position for product feed.
- Compressed air pressure control Switch.
- Auto height adjustment according to container height.

## INDUCTION SEALING MACHINE

- Pre rejection of container with missing Al. foil and missing caps.
- Air cooled system.
- Operator friendly.
- Interlocking arrangement for Bottle jamming.
- Counter for number of bottle sealed / Rejected on Display.

## CAPPING MACHINE

- Special attachment for pick and place of cap over bottle available as option for screw, CRC caps, or press on caps.
- Tightening torque setting by manual according to cap size.
- Auto rejection possible for VAD missing.
- Output upto 50 BPM (Single Head) & upto 200 BPM (Multi head)

## COTTON INSERTER

- PLC controlled system with touch screen HMI.
- Servo controlled drive for positioning of Cotton roll.

## SILICA GEL INSERTER

- PLC controlled system with touch screen HMI.
- Servo controlled drive for positioning of silica pouch.
- Multiple drops of pouch in same container.

## LABELING MACHINE

- Operator friendly machines available with wrap-around or Front & Back Labeling application.
- Display Hourly Output / Counter for labeled products.
- Can be integrated with any make printer.
- GMP Compliance.
- Bar code reader and Pharma code reader provision available.

## OUTSERTER MACHINE

- PLC controlled system with touch screen HMI.
- Servo controlled drive and pick & place arrangements for booklets.
- Provision for parma code online inspection.
